Modular Tanks

The Whites modular tank has been manufactured since 1982. With over 5,000 tanks installed, the design and reliability of the tank is well proven.

Supplied in 10m3 (10,000 litres) modules it can be extended in increments to your required capacity. The Tank complies with the appropriate British Standards BS8110 & BS8007.

Designed entirely in compliance with the requirements of the Health & Safety Executive and the Environment Agency.

Advantages:

- Installation usually within 1-3 days
- Reduction in cure time
- Lower plant costs
- Reduced overheads
- Lower labour costs

Applications include:

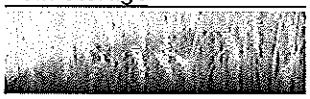

- Storm-water
- Recycling
- Filtration
- Waste water treatment
- Aeration
- Effluent
- Clean water storage
- Sludge
- Sewage
- Slurry
- CSO Chambers

Applications

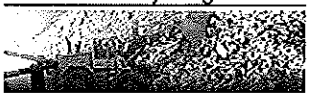

Agriculture

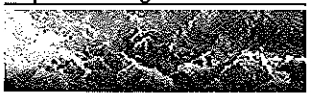

Bulk Storage

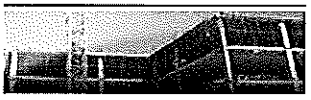

Waste & Recycling

Liquid Storage & Treatmen
