Comments: We are expressing concerns re; this application. We stayed on the adjoining caravan site last year and enjoyed tremendous views over the surrounding countryside. Being avid caravanners, this site provided the amenities of b b q facilities & we also enjoyed our fire pit facility for evening socialising with fellow caravanners.

The owner of the caravan site has very recently contacted us re our future re-visit to his site to make us aware of the possible erection of a large shed to possibly store flammable hay/straw etc in very close proximity to the caravans, destroying the existing views & b b q facilities enjoyed on our last visit.

It was a newly opened site run expertly by a very nice friendly couple & our friends and ourselves planned to return this summer. This is now in jeopardy & we wish to express our concerns that this building is not only being built on greenbelt but could also be a fire risk to the adjacent caravans. It would also drastically affect the openness of the countryside & surely it could be built elsewhere or not at all far away from sight. At the moment we will just have to see what developed, but if there is no change we and am sure many others will seriously think twice before re-visiting this very well run and quiet new caravan site. My sympathies go out to the owners for all their hard & possibly fruitless work. Regards.
