Site Address: Land At Leek Road Endon Staffs

Comments by: David White

From:

Submission: Objection

Comments: Endon is a village with sites and buildings of historical interest reflected in the designation of Conservation Area status. This designation shows the commitment of the local authority to preserve and enhance the character and appearance of Endon. The secondary Cauldon Canal conservation area is adjacent. The proposed phone mast will be a dominant feature of the Endon Conservation Area and mar the view from the Cauldon Canal and will be damaging to the character of both.
