Dear Sirs,

I am writing to express my concern as a regular user of Beat Lane, Rushton Spencer at the proposed road. Beat Lane between the junction of A523 and Dingle lane is a very hazardous road to drive and frequently I encounter cars driving in the middle of the road at speed especially coming up hill, any additional traffic or vehicles turning onto this stretch of road will add to the dangers already experienced.

There have sadly already been fatalities on the road between Congleton and Rushton due to the poor visibility for drivers of crossing points, and the way the roadway reduces substantially in width makes it very dangerous .

Yours sincerely
Marion Goddard
