Re: Proposed development SMD/2016/0649 the planning application for proposed residential development and creation of new vehicular access

We the above wish to lodge our objections to the proposed development for the following reasons

I would like to strongly object to the building of houses behind our house. It will greatly impact on our privacy, the wildlife and the value of our property. It will increase noise and possible flooding. The mining in the area could lead to subsidence of property. The exit is also of great concern right near to an already dangerous road. Where children have to walk to school and access the park having young children it is a great worry. The impact of traffic and noise to this village is unacceptable in a green belt area.
