Planning application SMD/2020/0121
9, Patch Meadow Road, Cheadle, Staffordshire, ST10 1PX

Case Officer: Arne Swithenbank
End of Public Consultation period: 26/03/2020

Dear Mr. Swithenbank

We would like to strongly object to Planning Application SMD/2020/0121, 9 Patch Meadow, ST10 1PX.

Having viewed the plans, the proposed 2-storey extension would greatly spoil the aspect of our home, dominating the view from our side kitchen window and doorway, and block off a lot of light in the same area, including part of our front and rear gardens.

The general appearance would loom over number 8, potentially devaluing our property. Similarly, the conversion of the front lawn and borders to parking spaces would change the appearance of what has always been a green, quiet residential cul-de-sac.

I fully understand that the proposed construction work and it's associated disruption is not covered in this objection and comments process, but would like to raise that we are both elderly, and my wife has ongoing health conditions . The proposed extension to Number 9 and this objection process are causing great anxiety, and the inevitable noise and dust from the lengthy building work will bring further distress.

MR. T. PARKER.
