What is the nature of your enquiry?	Progress of Planning Application
Please input the planning application reference number if know	SMD/2017/0243
Please enter your enquiry details here (Max 5000 characters)	I wish to put forward a comment with regards to the non support of the planning SMD/2017/0243. I am the closest permanent neighbour to cherry barn, I moved to the area which is a rural area with peace and quiet and will find the peace and quiet disturbed by the noise of the generators which will now be much nearer then the original rejected planning therefore louder. I also have concerns with regards to delivery of biofuel there is no mention of how much can be stored and how often deliveries will be coming down our road, which is very light traffic and safe for me to ride out on my horses as I cannot go far due to the heavier traffic roads I wouldn't want to be trapped with a lorry coming down the drive. I also have concerns with it being a right of way for pedestrians with both the noise, the lorries and the output for the waste causing air pollution around about. Thanks & regards Lucinda
