Submission: Objection
Comments: Dear Mr Hurst,

The bottom of our property directly borders the treed area of 7 New Road. As has already been mentioned by our next door neighbour in his four objections to the planning applications, we have already experienced wilful damage from one of the wards to the fencing between ourselves and 5 New Road (which, despite our different road names, is the other half of our semi-detached house).

I am objecting to the application for two main reasons.

The first is that I have had to stop VERY suddenly several times while turning into New Road on my way out, and every single time it was entirely due to the speed of a vehicle approaching the driveway of number 7 from the entrance to New Road.

The second is due to noise pollution from the premises. My husband is permanently wheelchair-bound, as is our neighbour, and, now that the warmer weather has arrived, he really enjoys sitting out in the garden simply taking in the natural beauty that surrounds us and soaking up the sun. We even eat our evening meal out there when we can, and this is where the noise from number 7 becomes extremely irritating, with either regular uncontrolled shouting and shrieking or general loud "disagreements" between the carers and the children they are supposed to be looking after. Last week, while we were outside having our tea, there suddenly came a ridiculously loud burst of music from a car parked in the driveway that had all of its doors open. Either the staff didn't hear the din or simply chose to

ignore it, because the music was blaring out for over half an hour. In the end, we just gave up and took our meals back inside the house and shut the windows and doors until it finally stopped.

Please register my objection to this application on the grounds that we find the existing setup already more intrusive than every other house in Ash Way and New Road combined, and we do not want matters to get even worse with the addition of any more unruly occupants.

Mary and Noel Keogh
