Dear Sir/Madam,

RE: ERECTION OF AN AGRICULTURAL EQUIPMENT STORE HOLDING AT OLD FURNACE FARM GREENDALE

The proposed agricultural store will house a tractor, grass cutting equipment, fencing materials and other equipment and materials used in the operation of the holding as an agricultural unit. The fields are grazed and the woodland is being actively managed.

The site for the proposed store is set in a depression. The site is bounded by trees on the right. The ground level to the left and rear of the store being above the proposed store eaves height (3.66m). The proposed store will appear to be almost all below ground level, will be well tucked away and will have no material impact on the appearance and character of the area.

Please note that the site is currently being used to temporarily store some building materials for the barn renovation, these will have been removed in a few months.

I trust the foregoing is acceptable and I look forward to hearing from you in the near future.

Regards

Colin & Davina
