Email: Submission: Objection
Comments: Dear Mrs Curley

It is very difficult to make any planning comment when there are are no plans and documents available . However from what is indicated this application has associations with an earlier full application SMD/2019/0716

which you have been considering for the past 6 months and which has a number of serious problems that in the normal course of things would be deemed so wanting and unacceptable and thus be rejected. without prejuduce.

1) Please confirm that link is the same as described. If not please supply more details so that a rational and measured approach can be taken to assess the merits of this application and so that an informed comment

either way can be made .

2) Please explain why there is no fee attached to this separate application.

3) A screening opinion is normally made prior to a major application not after that application is sent in. it is the method of finding out if an EIA is required before the application is made. In this instance given that the

application is already lodged and validated it appears to be unnecessary or just proves that the application is untrustworthy and should be refused.

On the basis of above there is need for more clarity and an explanation of the relevance of this application to its presumed purpose, and in its absence therefore I object .
