Application No SMD/2020/0287

Dear Sir,

Yet again another application to build on Green Belt agricultural land. How many times are we expected to write the same things over and over again in order to object to these applications? Nothing has changed. The objections to this application are the same as the objections to SMD/2020/0233 on 26th. May last which, in turn were the same as the objections to site reference KG049A on 29th. July 2015.

Please refer to all previous objections as they all still apply and reject this application.

Yours faithfully,
