Tree Survey

Position measurements taken from South and East boundry, marked X and Y respectively.

Position A

Willow

X 6·8m - Y 11·8m

Circumference - 900mm

Height 9·6m

Position B

Silver Birch

X 5·9m - Y 2·68m

Circumference - 550mm

Height 10·8m

Position C

09/01012/FUL 15 OCT 2009 - SM

Willow

Splits into three sections at 750mm from ground level

X - 3·76m - Y 1·15m

Height 10·8m

Base circumference - 1·75m

Section circumference - ① 830m
② 750m
③ 730m

All trees are in good health and have not been adversley affected by the work already done.
