Submission: Objection
Comments: A roof terrace would have seriously detrimental effect on the local residents and the environment as it would lead to increased noise and air pollution and due to the proposed location being at the rear of the premises a greater potential for anti social behaviour . Private residences would be overlooked from an elevated position with views straight across into upstairs rooms. These areas were never designed for access to the public. The owners already use the front of the premises for outdoor seating which is in full view of the bar area and not private residences.
