Submission: Objection
Comments: With regards to the proposed alterations at 38 Churchill avenue,

I believe a potential loss of light into my property should be considered and assessed.

Looking at the plans it appears the roof will double in size. This will mean I will lose sight of the sky, when stood at the centre of my living room window, from half of the window. Thus, potentially affecting the amount of natural light coming into the room.

The new 3 overlooking windows looking straight into my property also cause a serious loss of privacy.

Looking along the road the new raised height of the property will not be in keeping with the rest of the properties.

The development will have a big visual impact to all neighbouring properties.
