Date: 20 July 2017 15:44:44

Hello Mark,

Our standard separation distances for manure/slurry storage is 50m to allow odour/insect dispersal. The proposed development is sufficient distance from the nearest neighbouring properties. The Environmental Health section has no objection to the proposed development.

If you wish to discuss please don't hesitate to contact me on the number listed below.

Thank You,

Denis,

Mr Denis Colgan
Pollution Officer (Specialist)
