Subject: Planning (SMDC)
SMD/2020/0603

Good evening,

I would like to comment on the proposed planning application SMD/2020/0603
11 Blackbird Way, Biddulph, SOT, ST8 7UH

After viewing the proposed plans, I would like to object to this.
I am the home owner and resident of 15 Blackbird Way. I have concerns about the close proximity of the proposed external chimney stack to my property, due to this being at the side of my house, near to the front window. I feel it isn't in keeping with any other property in the street or on the housing estate where we reside and would look out of place, as it will be so visible. I am concerned it will devalue the property and potentially others surrounding this. I currently live in a smoke free zone and i do not wish to have the smell of smoke coming into my property, I am concerned about the burning of unsafe products which could then result in a nuisance complaint further down the line.
Please ensure that this objection is noted on the planning process.

I look forward to hearing from you regarding this matter.

Regards

Carly Wood
