Submission: Objection
Comments: I object to 24/7 operating of this premises . I have not been informed of this proposal at all which I feel was intentional to prevent an objection being raised. My neighbour has informed me of this as she has received written correspondence- this is very underhand. This business has created a major eye sore in a place of natural beauty- there is constant mud and dirt on the road and the large tanks sitting on the roadside look terrrible. This road is very quiet from approx 7-8pm at night until approx 7-8am - it is not busy as stated by the applicant . Therefore to suggest large tanks coming to and fro 24/7 would not make a difference is totally unjustified. I suggest the council survey the road as I have . This noise would and can be heard from our house
