Dear Sirs

Re: Proposed Hay Shelter at Heaton House Farm, Rushton Spencer

In December 2007 retrospective planning permission was received for a Straw and Hay Shelter on the above site (Application ref: SMD/2015/055). This structure has subsequently been found to be inadequate for current purposes and it is proposed to erect a similar, but larger, structure adjacent to the existing. An application as to whether prior approval is required is therefore attached.

The proposed building is open on three sides with dark green profiled metal cladding (to match the adjacent building) to the rear and a dark green profiled metal roof. The building will be screened for the most part by the existing hedges and trees around the site.

Yours faithfully

Ian Ankers MCIOB
