Dear Staffs moorlands planning

I have received notification that our neighbour at 22 Jasmine close has made an application to erect a single storey side extension.

I have viewed the documentation online and whilst we have no objection to their application the plans of the new site do not show the section of land we own under our own land registry plan SF603830. Please see attached document – The red triangle area shown inside number 22's boundary plan is owned by ourselves at 29 Jasmine close.

Could you please amend your plans to accommodate this information.

Kindest Regards

Neil Pedersen
