Re: wind turbine

Good Evening

I am sending this email in response to the wind turbine in place at 2 Parkway.

I am fortunate to live on a nice residential estate and was most upset when I saw the wind turbine had been erected.i have lived here for 53 years.It is at the end of the street and not discreet in anyway, it's an eye sore.

When it's windy, it's a turbine and it isn't particularly quiet. It's frightening when we walk past it, as it whizzes around so rapidly,you worry in case it's going to spin off,causing damage in its surrounding area.

I feel it lowers the tone in the area and isn't in keeping in the area, which is very disappointing. I appreciate it is eco friendly, but it's not neighborhood friendly unfortunately.please consider this application carefully and hopefully get this turbine dismantled and erected in a more suitable rural setting?

Yours sincerely

Jan mckendrick
