Informatives

1. The Council has sought (negotiated) a sustainable form of development which complies with the provisions of paragraphs 186-187 of the NPPF.

2. It is judged unlikely that Bats will utilise this building as a place of rest or shelter. In the unlikely event that bats or bat droppings are encountered during the development work, all operations should be immediately ceased and advice obtained from an ecologically qualified bat specialist. Work should then continue only in accordance with the specialist advice obtained and with due reference to the law including the Conservation of Habitats and Species Regulations 2010 and the Wildlife and Countryside Act 1981.

3. All wild birds including their nests and eggs are protected by law. It is an offence, with certain exceptions, to kill, injure or take wild birds or to take, damage, or destroy their nests or take or destroy their eggs. Site clearance and/or demolition cannot therefore take place where there are birds nesting. Typically this will be in the period mid February to mid August. As this development involves vegetation clearance and/or demolition and/or other activities which would be damaging to any nesting birds present the work should avoid the bird nesting season so far as possible. If such work is to take place in the nesting season an ecologist experienced in bird nesting habits should first be engaged to advise on and ensure that the intended work can legally take place.

This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
   (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
   (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.

4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.

5. The permission is granted in strict accordance with the approved plans. It should be noted however that:

   (b) Variation to the approved plans will require the submission of a new planning application.

The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
