Submission: Objection
Comments: Full and complete objection to the change of use of this domestic dwelling.

Insufficient space for the vehicles specified in the plans on the building frontage, suspect use of frontage has already been modified outside of existing permissions.

Street is already regularly fully parked and gaining permits within the street for additional parking completely out of the question and unfair to residents. Street is currently populated with young families including some with significant vulnerabilities. Permit to house young people with behavioural disorders is completely inappropriate for this enclosed setting as it closes young families and elderly residents in with the situation. Regular access for police, social service and emergency vehicles will bring considerable stress to residents whose dwellings all face toward the entrance of the property.

Issues with these disturbances and other noise is detrimental to the health of residents especially children who require medication for sleep who reside in the street.

Access requirements for a commercial premises of any kind in this small cul de sac location renders this application entirely inappropriate.
