

**Notes**

- All levels and dimensions are to be checked on site before any work commences. All dimensions are in metres unless stated otherwise.
- Any discrepancies shall be reported to the architect and/or engineer immediately, so that clarification can be sought prior to the commencement of works.
- This drawing shall be read in conjunction with all other relevant architect and engineering details, drawings and specification.
- All works are to be carried out in accordance with SCC 'Residential design guide - Appendix E - Highway Specification'.
- All supply alterations to be arranged by the main contractor.
- Refer to ##### drawing ##### for further specification of street lighting.
- New white lining and markings to be white thermoplastic and in accordance with TSRGD 2016.
- Diagram numbers refer to 'Traffic Signs Regulations and General Directions 2016' and amendments.
- All signs and posts should have a minimum lateral clearance of 500mm from edge of carriageway.
- All bollards shall have a minimum lateral clearance to the side and face of 450mm.
- Sign mounting heights to be a minimum of 2.3m in footways, 2.4m in cycleways. To be checked with SCC on site prior to fixing.
- All road studs are to be 100mm x 100mm stainless steel studs at 500 centres. To be installed as per manufacturers instructions.
