Comments: The current extension is already too close to the boundary, there is no room for any maintenance, let alone building works. I object to this application on the grounds that it will block out the light to my property, even more than it already does so. It will devalue my property as the extension would be very imposing and would reduce my privacy. I would lose the current view that I have when I look out of my bedroom window, all I would see would be a wall, which is depressing to say the least. There is also the problem that I won't grant access for the works to be carried out or any materials to be carried through my property/garden. If permission were granted, the scaffolding would have to be on my garden and it would damage the bush in which a colony of sparrows live in, this is far from acceptable. I totally oppose this planning application.
