Submission: Objection
Comments: There are 3 access's to the whole of the field to which the area shown on the plan is part of.The proposed access is immediately opposite the the drive ways of Mooredge & Hilltop.There is also a gated access between these 2 properties to fields,owned by Hough Bottom farm, to the rear of these. The road at this point is straight with a 40 MPH limit.Cars are often parked on the northwest side of Stanley Road causing traffic to slow considerably or stop. This is a busy rural road with out pavements.This access will cause further traffic problems when the applicant wishes to ingress & egress with vehicles towing stock trailers. There is also a considerably wide raised grass verge and a substantial drainage ditch along the boundary of the area adjacent to Stanley Road.This is an ill conceived application when existing access points exist all ready and can be used to access the area marked on the plan.via the existing field without affecting safety & traffic. Both of us thus object strongly to this application.
