Submission: Objection
Comments: We object to this fence as it will block our view from every window at that side of the house. We bought the house mainly for the view that we have got and never thought at any time there would be anything put there to block it. It would just look as if we have been fenced in. It would have been nice for someone from the school and/or the planners to come round and discuss the matter with us because we will will be affected more than any of the other properties. The field is only a little bit below the level of our land so the fence will be very high.

Also, will there be provision for the grounds men to come round and cut the hedge as it is not done very often at the moment and I have to struggle with it to keep it tidy and I am 75 this year.?

Regards

Les Key
