Submission: Objection

Comments: Due to the build of Lansdowne crescent all the houses have the lounge/ living & bedroom at the rear ,facing the rear of hillside road,therefore since the last alteration to number 15 on which we were not consulted over most of the properties on Lansdowne crescent and number 15 hillside have lost privacy,this they wish to add to by building an extension with other windows facing into our lounge and bedrooms.

At present both parties use blinds curtains most of the day but these do not block out the light pollution from the rear outdoor

light when used.
