Mr & Mrs Chadwick
C/o Agent

Application no: SMD/2018/0379

Determined on: 6th August 2018

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015 (as Amended)

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:
Agricultural Buildings East of Harveys Lane Harveys Lane Kingsley Moor Staffordshire

Description of Development:
Conversion and alteration of former agricultural buildings to form 1no. dwellinghouse with ancillary residential accommodation including recladding of outbuilding and erection of link extension

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason:- To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby permitted shall be carried out in accordance with the following approved plans: Dwg Nos. 17 036 AL(0)01, 17 036 AL(0)02, 17 036 AL(0)03, 17

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

036 AL(0)04 and 17 036 AL(0)13 A.

Reason:- For the avoidance of doubt and in the interests of proper planning, in accordance with the National Planning Policy Framework.

3. Prior to the commencement of development, and notwithstanding the submitted drawings, details of the types and colours of all facing wall and roof materials shall be submitted to and approved in writing by the Local Planning Authority. Development shall be carried out in accordance with the approved details.

Reason:- To ensure that the external appearance of the development is satisfactory.

4. Before the commencement of works, details of the design and materials of all proposed new windows and doors shall be submitted to and approved in writing by the Local Planning Authority. The windows and doors to be used in the development hereby permitted shall be timber. Development shall be carried out in accordance with the approved details.

Reason:- To ensure that the external appearance of the development is satisfactory.

5. Before the commencement of works, details of the design and materials for all proposed new vents/cowls/ducts, rainwater goods and pointing/re-pointing shall be submitted to and approved in writing by the Local Planning Authority. The rainwater goods shall be cast metal and finished in black. Development shall be carried out in accordance with the approved details shall.

Reason:- To ensure that the external appearance of the development is satisfactory.

6. Prior to the commencement of development, and notwithstanding the submitted drawings, details shall be submitted to and approved in writing by the Local Planning Authority of all eaves and verges. Development shall be completed in accordance with the approved details prior to the first occupation of the building.

Reason:- To ensure that the external appearance of the development is satisfactory.

7. The development hereby permitted shall not be commenced until full details of both hard and soft landscape proposals have been submitted to and approved in writing by the Local Planning Authority and these works shall be carried out as approved. These details shall include:
- Means of enclosure
- Hard surfacing materials
Soft landscape details shall include:
- Planting plans
- Written specifications (including cultivation and other operations associated with plant and grass establishment)
- Schedules of plants, noting species, planting sizes and proposed numbers/densities where appropriate
- Implementation timetables

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

Reason:- To ensure the appropriate landscape design and in the interests of the visual and residential amenities of the area.

8. The landscape scheme shall be implemented in accordance with the approved timetable and details and shall subsequently properly maintained in accordance with good horticultural practice; any plants which are removed, die, become diseased or otherwise fail to establish within 5 years of planting shall be replaced during the next available planting season and the replacements themselves shall then be properly maintained.

Reason:- To ensure the appropriate landscape design and in the interests of the visual amenities of the area.

9. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification) no additional windows or any other openings other than those shown on the approved plans shall be installed in any part of the development hereby permitted unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason:- To enable the Local Planning Authority to control the development and so safeguard the character and visual amenities of the area.

10. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that order with or without modification), no development as specified in Schedule 2, Part 1, Classes A, B, C, D, E, F, G and H shall be carried out within the site unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason:- To enable the Local Planning Authority to control the development and so safeguard the character and visual amenities of the area, and to ensure that adequate private open space is retained within the curtilage of the building.

11. The development hereby permitted shall not be brought into use until details of the parking and turning areas have been first submitted to and approved in writing by the local planning authority. The parking and turning areas shall thereafter be provided in accordance with the approved plans and retained for the life of the development.

Reason:- To comply with NPPF Paragraph 32; to comply with SMDC Core Strategy Policy DC1; in the interests of highway safety.

12. The development hereby permitted shall not be brought into use until the access drive rear of the public highway has been surfaced and thereafter maintained in a bound and porous material for a minimum distance of 5m back from the carriageway edge.

Reason:- To comply with NPPF Paragraph 32; to comply with SMDC Core Strategy Policy DC1; in the interests of highway safety.

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

13. At any time during and following the completion of the development hereby permitted all exterior lighting installations shall be erected only in accordance with the protocols contained in the Institute of Lighting Engineers document "Guidance for the Reduction of Obtrusive Lighting" (2005) and the Bat Conservation Trust's "Artificial Lighting and Wildlife Interim Guidance: Recommendations to Help Minimise the Impact of Artificial Lighting" (2014) to minimise disturbance and sky-glow across the site. New artificial bat roosts and bird nesting sites should not be illuminated.

Reason: To minimise disturbance by artificial light to protected species including bats and minimise sky-glow across the site.

14. Any open trenches on site shall be provided with an escape ramp if left open for more than 12 hours to provide a means of escape for badgers or other animals. Any pipes over 150mm in diameter should be capped off at night to prevent animals entering.

Reason:- Badgers are protected under the Protection of Badgers Act 1992 and the hedgehog is a species of principal importance under the NERC Act 2006.

15. No demolition or site clearance shall take place between 31st March and 31st August inclusive unless a competent ecologist has undertaken a check of the buildings for breeding birds and provided written confirmation to the Local Planning Authority that no birds breeding birds are present.

Reason:- All breeding birds, nests, eggs and young are protected from harm under the Wildlife and Countryside Act 1981 as amended.

16. No development shall take unless and until a specification and a programme of implementation, for the enhancement of biodiversity through the provision of bat boxes and bird boxes into the new buildings and ecologically beneficial landscaping, has been submitted to and approved in writing by the Local Planning Authority. The works so approved, shall be carried out in accordance with the approved programme of implementation.

Reason:- To safeguard and enhance the ecology of the area in accordance with Policy NE1 of the Core Strategy and the National Planning Policy Framework.

17. Unless prior permission has been obtained in writing from the Local Planning Authority, all noisy activities shall be restricted to the following times of operations.
• 08:00 - 18:00 hours (Monday to Friday);
• 08:00 - 13:00 hours (Saturday)
• No working is permitted on Sundays or Bank Holidays.

In this instance a noisy activity is defined as any activity (for instance, but not restricted to, building construction/demolition operations, refurbishing and landscaping) which generates noise that is audible at the site boundary.

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

Reason:- To avoid the risk of disturbance to neighbouring dwellings from noise during unsocial hours.

18. The foul drainage from the proposed development shall be discharged to a septic tank and soak away system which meets the requirements of British Standard (BS) 6297:2007+A1:2008 and which complies with the following:-
a) There shall be no connection to any watercourse or land drainage system and no part of the soak away system shall be situated within 10 metres of any ditch or watercourse. Porosity tests shall be carried out and the results submitted to and approved in writing by the Local Planning Authority to demonstrate that suitable subsoil and adequate land area is available.

Reason:- To prevent pollution of the water environment.

19. Any facilities for the storage of oils, fuels or chemicals shall be sited on impervious bases and surrounded by impervious bund walls. The volume of the bunded compound shall be a least equivalent to the capacity of the largest tank, or the combined capacity of interconnected tanks, plus 10%. If there are multiple tankages, the compound shall be at least equivalent to the capacity of the largest tank, or the combined capacity of interconnected tanks, plus 10%. All filling points, vents, gauges and sight glasses must be located within the bund. The drainage system of the bund shall be sealed with no discharge to any watercourse, land or underground strata. Associated pipe work shall be located above ground and protected from accidental damage. All filling points and tank overflow pipe outlets shall be detailed to discharge downwards into the bund.

Reason:- To prevent pollution of the water environment.

20. In the event that contamination is found at any time when carrying out the approved development, it must be reported in writing immediately to the Local Planning Authority. If after consultation with the Local Planning Authority the contamination is considered to pose a possible risk, to human health, buildings and other property and the natural and historical environment (receptors), development shall not commence further until a site investigation and risk assessment has been completed in accordance with a scheme to be agreed in writing by the Local Planning Authority. If the contamination investigation and risk assessment indicates that potential risks exists to receptors, development shall not recommence until a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to the receptors has been prepared, and is subject to the approval in writing of the Local Planning Authority. The approved remediation scheme shall be completed in full prior to the first occupation of the development.

Reason:- To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

21. Prior to bringing the development into first use, all soils that are intended to be used for the proposed garden/ soft landscaping areas shall be tested for contamination and

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

assessed for their suitability for the proposed use. Prior to sampling, a suitable methodology for testing the soil shall be submitted to and agreed in writing by the Local Planning Authority and shall include the sampling frequency, testing schedules, and criteria against which the analytical results will be assessed. The results of the soil tests shall be submitted to and approved in writing by the Local Planning Authority. If soil results indicates that a potential risks exists, development shall not commence until a detailed remediation strategy to bring the site to a condition suitable for the intended use has been prepared and approved in writing by the Local Planning Authority. No development shall take place except in complete accordance with the approved remediation strategy.

Reason:- To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

22. The buildings noted on the approved site plan for demolition (Building C and shown in a dashed line) shall be completely demolished and all materials used in their construction shall be removed from site prior to the first occupation of the dwelling hereby permitted.

Reason:- To enhance the immediate setting of the building in accordance with Paragraph 55 of the Framework.

23. The building proposed for conversion to a home gym on the approved plans shall remain ancillary to the hereby approved dwelling on the site and shall not be sold, let or otherwise occupied as a separate dwelling unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason:- For the avoidance of doubt and to comply with Policy R2 of the SMDC Core Strategy.

Summary of reasons for granting planning permission

1.This is considered to be a sustainable form of development and so complies with the provisions of the NPPF.

The Local Planning Authority (LPA), in reaching this decision, has followed the guidance in paragraphs 186 and 187 of the National Planning Policy Framework. The Framework advises that the LPA should work proactively with applicants to secure developments that improve the economic, social and environmental conditions of the area.

Informatives

1. Any waste material associated with the demolition or construction shall not be burnt on site but shall be kept securely for removal to prevent escape into the environment.

2. Please be aware that the responsibility for safe development and secure occupancy

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

of the site rests with the developer.

• Any redundant on site buildings may well have asbestos containing materials (ACM) in their fabric (e.g. asbestos roof). To ensure no future asbestos contamination, as a result of demolition a “Demolition or refurbishment asbestos survey” and risk assessment should be carried out prior to the demolition of these buildings. The enforcing authority for this type of work is the Health and Safety Executive (HSE) and it is recommended that you contact them directly to discuss their requirements: http://www.hse.gov.uk/.

• Any approved noise scheme and measurements should pay due regard to British Standard BS8233: Sound insulation and noise reduction for buildings (Code of Practice), BS4142:2014 Methods for rating and assessing industrial or commercial sound and/or the Building Regulations 2010 Document E or other appropriate guidance.

• Any approved foul drainage system should meet the British Standard 6297:2007+A1:2008: Code of practice for the design and installation of drainage fields for use in wastewater treatment http://www.bsigroup.com

• Advice on controlling flies and light can be found in: Statutory Nuisance from Insects and Artificial Light (defra 2005) available as a free download http://archive.defra.gov.uk/environment/quality/local/legislation/cnea/documents/statnuisance.pdf

• During any demolition and construction activities (including landscaping) the contractor shall take all reasonable steps to prevent dust formation and prevent any dust formed from leaving the site boundary.

• The control of dust and emissions from construction and demolition Best Practice Guidance, produced by the greater London councils

http://www.london.gov.uk/sites/default/files/BPGcontrolofdustandemissions.pdf
• Building Research Establishment Guidance Document ‘Control of Dust from Construction and Demolition Activities’ (BR456)

• If required, contamination risk assessments shall be carried out in accordance with UK policy and with the procedural guidance relating to the contaminated land regime, and should be in accordance with Planning Policy Statement 23 and the CLR Report Series 1-12.

• Submission of reports should also be made to the Environment Agency for comment with regard to their remit to protect ground and surface waters from pollution and their obligations relating to contaminated land.

• The Local Planning Authority will determine the acceptability of reports on the basis of the information made available to it. Please be aware that should a risk of harm from contamination remain post development, where the applicant had prior knowledge of the contamination, the applicant is likely to be liable under Part II (a) of the Environmental Protection Act 1990 and as such become and “appropriate person”. In this event the

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

applicant will be lawfully responsible to remove the risk posed by the contamination.

• Equally if during any site works a pathway for any contaminant on site is created and humans, waters, property or ecological systems are exposed to this, the applicant or those acting on behalf of the applicant will be liable under part II (a) of the Environmental Protection Act 1990 if the risks are not adequately addressed during the site redevelopment.

• During investigation and remediation works the applicant and those acting on behalf of the applicant must ensure that site workers, public property and the environment are protected against noise, dust, odour and fumes

• The applicant is advised that should there be a requirement as part of the Remediation Strategy to treat, reuse or remove contaminated material on the site, the Environment Agency must be consulted, as these activities may need to be licensed or permitted. Contaminated materials identified for removal off site must be disposed of in an appropriately licensed landfill site.

• Staffordshire Moorlands District Council is keen to liaise with all stakeholders involved in this application. As such, we recommend that a proposed scope of works is forwarded to the Environmental Protection Department and agreed in principle prior to site investigation works being undertaken. The Environmental Protection Department is also prepared to review draft copies of reports prior to final submission to the Planning Department in order to ensure that works undertaken are sufficient to discharge the contaminated land conditions.

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section at BControl@staffsmoorlands.gov.uk

2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.

3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
   (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
   (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.

4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.

5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
   (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
   (b) Variation to the approved plans will require the submission of a new planning application.

6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

8. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

9. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.

10. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at https://acp.planninginspectorate.gov.uk

11. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

12. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
13.
