Submission: Neither
Comments: There are 3 points of concern in relation to this appliaction.

1. Material & Colour. The existing development is constructed of wood and I consider that the proposed stable block should also be of a similar style, materials & colour to give a cohesive appearance in this particular green belt setting.

2. Concern for the horses. The whole plot is 3.4 acres, taking out the propsed development site this leaves approx 3 acres for horse grazing. I feel that this is insufficent to support up to 5 horses at any one time (2 exiting Stables plus 3 new ones).

3. Environment. There seems to be no provision for the storage of, up to, 6 months worth of manure generated - see section 2 of the internal response dated 23.1.19 regarding envionmental health.
