Comments: I have received complaints from adjacent residents that they have not received a copy of the planning notice, I have been told that a copy of the planning notice has only been received by No.4 Potters End. Residents opposite the proposed development in Sawyers Way are affected by this development and need planning notice letters too.

I have visited the site this morning (Friday 10th May, 2019) and can see not planning notices attached to lampposts or street furniture to inform residents of what is proposed.

Could you please rectify, or clarify these issues.
