Subject: RE: Urgent response required - Britannia Chambers

Dear Mila

Thank you for your email. I am sorry that you have had difficulty in contacting me. I have not received any voicemail messages from you. In short:

-A non material minor amendment application is not suitable as the permission has been implemented and the development completed.
-The replacement of the cladding panels is a fresh proposal and we must consider whether or not planning permission is required. It is my view that changing the cladding for a different material would require planning permission.
-Since the development on this site was originally approved, SMDC has adopted a new design guide which discourages the use of timber cladding and I would recommend that as part of any proposals to re-clad the building that you consider a material which is more in keeping with the local vernacular of the Staffordshire Moorlands such as brick or render.
You will appreciate that the above is an informal opinion based on the information that you have provided and does not constitute a formal determination under the Planning Acts.

I trust that the above is of assistance

Yours sincerely

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
