Good Day,

Thank you for the opportunity to comment on this planning application. Please find our response noted below:

With Reference to the above planning application the company's observations regarding sewerage are as follows.

As the proposal has minimal impact on the public sewerage system I can advise we have no objections to the proposals and do not require a drainage condition to be applied.

Severn Trent Water advise that there may be a public sewer located within the application site. Although our statutory sewer records do not show any public sewers within the area you have specified, there may be sewers that have been recently adopted under the Transfer Of Sewer Regulations 2011. Public sewers have statutory protection and may not be built close to, directly over or be diverted without consent and contact must be made with Severn Trent Water to discuss the proposals. Severn Trent will seek to assist in obtaining a solution which protects both the public sewer and the building.

Kind regards,

Asset Protection Team
Severn Trent
