Subject: APPLICATION NUMBER SMD/2019/0264

Categories: Blue Category

Dear Sir

We are e-mailing to register our objection to planning application number SMD/2019/0264. This is a retrospective application and the "conservatory" is in fact a brick built extension with a slate roof. The side of the "conservatory" extension at the back of the house contains a window which overlooks our back garden and directly into our sitting room which greatly restricts our privacy. The side wall and window are, at most, only a foot away from the boundary fence of our garden and the window in the extension is very close to the window of our sitting room.

We have no objection to the demolition of the existing garage and erection of single storey side extension but object strongly to the intrusive window in the side wall of the "conservatory".

Yours faithfully

Mr KA and Mrs M Rushton
