I am writing with reference to the above planning application numbers to express views in which i feel that the plans may affect the property that I rent out.

I have owned 23 Market Street for over 20 years and rent out the flat above the property from which I run my business.

I am keen to understand how the flat that I own and successfully rent out, will be overlooked by the new planning application.

I am not objecting to the proposals and happy that someone is taking the time to restore the building, but as you can understand I want to understand any impact it may have on my businesses that are registered to the property.

Kind Regards
Neil Edge
