Mr & Mrs Gould
C/O Sammons Architectural Limited

Application no: SMD/2019/0019

Determined on: 18/06/2019

Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015

GRANT OF OUTLINE PLANNING PERMISSION

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:
Kinnoull East Street Leek Staffordshire ST13 6LF

Description of Development:
Outline planning application with details of access (all other matters reserved) for the erection of a single detached bungalow

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANT OUTLINE PLANNING PERMISSION** for the works described above subject to the following condition(s):

1. The development hereby approved shall be carried out in accordance with the following submitted plans and subject to the following conditions and/or modifications:-

   2018-2385-01;
   2018-2385-02 Rev C;
   2018-2385-03 Rev B.

   Reason:- For the avoidance of doubt and in the interests of proper planning and in accordance with the National Planning Policy Framework.

2. The development hereby permitted shall be begun either before the expiration of three years from the date of this permission, or before the expiration of two years from the date of approval of the last of the reserved matters to be approved.

Simon W. Baker B.Ed MBA MIMSPA
Chief Executive

Reason:- To comply with the provisions of Section 92 of the Town and Country Planning Act 1990 (As Amended)

3. Application for approval of the reserved matters shall be made to the Local Planning Authority before the expiration of three years from the date of this permission.

Reason:- To comply with the provisions of Section 91 of the Town and Country Planning Act 1990.

4. The approval of the Local Planning Authority shall be obtained in writing with respect to the plans and particulars of the following reserved matters (hereinafter called 'the reserved matters') before any development is commenced.
a)-The appearance of the building(s)
b)-The scale of the building(s)
c)-The layout of the building(s)
d)-The landscaping of the site.

Reason:- The application is an outline application under the provisions of Article 1(2) of the Town and Country Planning (General Development Procedure) Order 1995 and no particulars have been submitted with respect to the matters reserved in this permission.

5. The development hereby permitted shall not be commenced until details of all walls, fences and other means of enclosure have been submitted to and approved in writing by the Local Planning Authority. The approved details shall be completed prior to the occupation of any of the buildings on the site.

Reason:- To provide adequate privacy and an acceptable external appearance.

6. The development hereby permitted shall not be commenced until details of the existing and proposed levels across the site and relative to adjoining land, together with the finished floor levels of the proposed building(s), have been submitted and approved in writing by the Local Planning Authority. Development shall take place in accordane with the approved details and there shall be no variation in these levels without the written approval of the Local Planning Authority.

Reason:- In order to ensure the satisfactory appearance of the development and its relationship to adjoining properties.

7. The proposed development hereby permitted shall not be commenced until the replacement parking and turning area for the existing dwelling have been provided in accordance with the approved plans. The parking and turning areas shall thereafter be retained unobstructed as parking and turning areas for the life of the development.

Reason:- In the interests of highway safety and parking provision.

8. Notwithstanding the above approved plans samples/details of the parking and turning area hardstanding located to the front of the dwelling known as 'Kinnoull' shall be submitted

to and approved in writing by the Local Planning Authority. The development shall then be carried out in accordance with the approved materials and retained for the lifetime of the development.

Reason:- In the interests of visual amenity and the applicants' agreement to seek alternative surfacing materials to a tarmac surface.

9. The development hereby permitted shall not be brought into use until the access to the proposed replacement parking area for the existing dwelling within the limits of the public highway has been completed.

Reason:- In the interests of highway safety.

10. The development hereby permitted shall not be brought into use until details of the 2.4mx43m visibility splays at the proposed access to replacement parking have been submitted to and approved in writing by the Local Planning Authority. The visibility splay shall be provided in accordance with the approved plan prior to the development being brought into use and thereafter be kept free of all obstructions to visibility over a height of 600 mm above the adjacent carriageway level.

Reason:- In the interests of highway safety.

11. The first action on commencement of development, prior to any further action (including any demolition, site clearance, site stripping or site establishment) shall be the erection of temporary tree protection barriers fencing and advisory notices for the protection of the existing trees to be retained, generally in accordance with guidance in British Standard 5837:2012 Trees in Relation to Design, Demolition and Construction – Recommendations but as adapted to suit specific site conditions as set out in the tree survey report and arboricultural impact assessment by Hamps Valley Ltd dated 16th May 2019 submitted in support of the application, and this shall be retained in position for the duration of the period that development takes place, unless otherwise agreed in writing by the Local Planning Authority. Within the fenced areas there shall be no excavation, changes in ground levels, installation of underground services, provision of hard surfacing, passage of vehicles, storage of materials, equipment or site huts, tipping of chemicals, waste or cement, or lighting of fires unless otherwise agreed in writing by the Local Planning Authority.

Reason:- In the interests of trees to be retained.

12. There shall be no removal of any trees or shrubs during the bird nesting season (generally March to August inclusive), unless otherwise agreed by the Local Planning Authority.

Reason: In the interests of protected species.

13. Unless prior permission has been obtained in writing from the Local Planning Authority, all noisy activities shall be restricted to the following times of operations.

"" 08:00 - 18:00 hours (Monday to Friday);
"" 08:00 - 13:00 hours (Saturday)
"" No working is permitted on Sundays or Bank Holidays.

In this instance a noisy activity is defined as any activity (for instance, but not restricted to, building construction/demolition operations, refurbishing and landscaping) which generates noise that is audible at the site boundary.

Reason: To avoid the risk of disturbance to neighbouring dwellings from noise during unsocial hours.

14. No development, including demolition hereby permitted shall take place until a Construction and Environmental Method Statement has been submitted to and approved in writing by the Local Planning Authority. The Construction Method statement shall include the following details:-

I. A scheme to minimise dust emissions arising from demolition/construction activities on the site. The scheme shall include details of all dust suppression measures and the methods to monitor emissions of dust arising from the development.

II. Details of wheel washing facilities. All demolition/construction vehicles shall have their wheels cleaned before leaving the site;

III. a scheme for recycling/disposal of waste resulting from the demolition/construction works;

IV. the responsible person (e.g. site manager / office) who could be contacted in the event of complaint;

Once approved, all relevant activities on the site shall be carried out in accordance with Construction and Environmental Method Statement throughout the course of the development. Any alteration to this Method Statement shall be approved in writing by the Local Planning Authority prior to any deviation from it.

Reason: To protect the amenities of the area from dust

15. In the event that contamination is found at any time when carrying out the approved development, it must be reported in writing immediately to the Local Planning Authority. If after consultation with the Local Planning Authority the contamination is considered to pose a possible risk, to human health, buildings and other property and the natural and historical environment (receptors), development shall not commence further until a site investigation and risk assessment has been completed in accordance with a scheme to be agreed by the Local Planning Authority. If the contamination investigation and risk assessment indicates that potential risks exists to receptors, development shall not recommence until a detailed remediation scheme to bring the site to a condition suitable for the intended use by removing unacceptable risks to the receptors has been submitted to and approved in writing by the Local Planning Authority. The approved remediation shall be completed prior to the first

occupation of the development.

Reason:- To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

16. Prior to bringing the development into first use, all soils that are intended to be used for the proposed garden/ soft landscaping areas shall be tested for contamination and assessed for their suitability for the proposed use. Prior to sampling, a suitable methodology for testing the soil shall be submitted to and agreed in writing by the Local Planning Authority and should include the sampling frequency, testing schedules, and criteria against which the analytical results will be assessed.

The results of the soil tests shall be submitted and approved in writing by the Local Planning Authority. If soil results indicates that a potential risks exists, development shall not commence until a detailed remediation strategy to bring the site to a condition suitable for the intended use has been submitted to and approved in writing by the Local Planning Authority.

The approved remediation shall be carried out prior to the first occupation of the development.

Reason:- To ensure that the proposed development meets the requirements of the National Planning Policy Framework in that all potential risks to human health, controlled waters and wider environment are known and where necessary dealt with via remediation and or management of those risks.

17. Any waste material associated with the demolition or construction shall not be burnt on site but shall be kept securely for removal to prevent escape into the environment.

Reason: To protect the amenities of the area.

18. Development shall not commence until a site specific scheme for protecting the proposed residential units from noise, has been submitted to, and approved in writing by the Local Planning Authority. The submitted scheme shall have due regard for the British Standard BS8233:2014 Guidance on Sound Insulation for Buildings and be designed to achieve noise levels of less than 30 dB Laeq in bedrooms (night time), 35 dB LAeq in bedrooms (daytime), less than 40 dBLAeq in living areas and 50dB LAeq in outside living areas. A report shall be produced containing all raw data and showing how calculations have been made. A copy of such report shall be submitted to the Local Planning Authority for its approval in writing. The approved mitigation scheme be carried out prior to the first occupation of the development.

Reason: To protect occupiers from noise and safeguard their residential amenities.

19. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or as may subsequently be amended or re-enacted) no extensions, alterations or buildings within the site curtilage normally permitted by Classes A to E of Part 1 Schedule 2 to that Order shall be carried out unless a further planning permission has first been granted on application to the Local Planning Authority.

Reason: In the interests of residential amenity.

Informatives

1. The application has been assessed against adopted Development Plan policies (including paragraph 38 of the National Planning Policy Framework - February 2019) and any other material considerations. The application has been amended to increase the site area and information has been submitted to demonstrate that the development is acceptable in terms of impact upon the mature Ash tree. A sustainable form of development is therefore approved.

2. The dropped crossing to the site shall be constructed in accordance with the submitted drawing and SCC requirements. Please note that prior to the access being constructed you require Section 184 Notice of Approval from Staffordshire County Council. The link below provides a link to 'vehicle dropped crossings' which includes a 'vehicle dropped crossing information pack' and an application form for a dropped crossing. Please complete and send to the address indicated on the application form which is Staffordshire County Council at Network Management Unit, Staffordshire Place 1, Wedgwood Building, Tipping Street, STAFFORD, Staffordshire, ST16 2DH. (or email to nmu@staffordshire.gov.uk) http://www.staffordshire.gov.uk/transport/staffshighways/licences/

3. Severn Trent Water advise that there is a public sewer located within this site. Public sewers have statutory protection and may not be built close to, directly over or be diverted without consent. You are advised to contact Severn Trent Water to discuss the proposals. Severn Trent will seek to assist in obtaining a solution which protects both the public sewer and the building. Please note, when submitting a Building Regulations application, the building control officer is required to check the sewer maps supplied by Severn Trent and advise them of any proposals located over or within 3 meters of a public sewer. Under the provisions of Building Regulations 2000 Part H4, Severn Trent can direct the building control officer to refuse building regulations approval.

Please note that there is no guarantee that you will be able to build over or close to any Severn Trent sewers, and where diversion is required there is no guarantee that you will be able to undertake those works on a self-lay basis. Every approach to build near to or divert STW assets has to be assessed on its own merit and the decision of what is or isn't permissible is taken based on the risk to the asset and the wider catchment it serves. It is vital therefore that you contact STW at the earliest opportunity to discuss the implications of their assets crossing your site. Failure to do so could significantly affect the costs and timescales of your project if it transpires diversionary works need to be carried out by Severn Trent.

4. Please be aware that the responsibility for safe development and secure occupancy of the site rests with the developer.

"" A Demolition or refurbishment asbestos survey and risk assessment should be carried out prior to the demolition of the existing buildings. The enforcing authority for this type of work is the Health and Safety Executive (HSE) and it is recommended that you contact them directly to discuss their requirements: http://www.hse.gov.uk/

"" Any approved noise scheme and measurements should pay due regard to the Professional Guidance on Planning and Noise (ProPG), British Standard BS8233: Sound insulation and noise reduction for buildings (Code of Practice), BS4142:2014 Methods for rating and assessing industrial or commercial sound and/or the Building Regulations 2010 Document E or other appropriate guidance

"" Advice on controlling flies and light can be found in: Statutory Nuisance from Insects and Artificial Light (defra 2005) available as a free download http://archive.defra.gov.uk/environment/quality/local/legislation/cnea/documents/statnuisance.pdf

"" During any demolition and construction activities (including landscaping) the contractor shall take all reasonable steps to prevent dust formation and prevent any dust formed from leaving the site boundary.

"" The control of dust and emissions from construction and demolition Best Practice Guidance, produced by the greater London councils http://www.london.gov.uk/sites/default/files/BPGcontrolofdustandemissions.pdf

"" Building Research Establishment Guidance Document 'Control of Dust from Construction and Demolition Activities' (BR456)

"" If required, contamination risk assessments shall be carried out in accordance with UK policy and with the procedural guidance relating to the contaminated land regime, and should be in accordance with Planning Policy Statement 23 and the CLR Report Series 1-12.

"" Submission of reports should also be made to the Environment Agency for comment with regard to their remit to protect ground and surface waters from pollution and their obligations relating to contaminated land.

"" The Local Planning Authority will determine the acceptability of reports on the basis of the information made available to it. Please be aware that should a risk of harm from contamination remain post development, where the applicant had prior knowledge of the contamination, the applicant is likely to be liable under Part II (a) of the Environmental Protection Act 1990 and as such become and ""appropriate person"". In this event the applicant will be lawfully responsible to remove the risk posed by the contamination.

"" Equally if during any site works a pathway for any contaminant on site is created and humans, waters, property or ecological systems are exposed to this, the applicant or those acting on behalf of the applicant will be liable under part II (a) of the Environmental Protection

Act 1990 if the risks are not adequately addressed during the site redevelopment.

"" During investigation and remediation works the applicant and those acting on behalf of the applicant must ensure that site workers, public property and the environment are protected against noise, dust, odour and fumes

"" The applicant is advised that should there be a requirement as part of the Remediation Strategy to treat, reuse or remove contaminated material on the site, the Environment Agency must be consulted, as these activities may need to be licensed or permitted. Contaminated materials identified for removal off site must be disposed of in an appropriately licensed landfill site.

"" Staffordshire Moorlands District Council is keen to liaise with all stakeholders involved in this application. As such, we recommend that a proposed scope of works is forwarded to the Environmental Protection Department and agreed in principle prior to site investigation works being undertaken. The Environmental Protection Department is also prepared to review draft copies of reports prior to final submission to the Planning Department in order to ensure that works undertaken are sufficient to discharge the contaminated land conditions.

X B.J. Haywood

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section at buildingcontrol@staffsmoorlands.gov.uk

2. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.

3. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
   (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
   (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.

4. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.

5. The permission is granted in strict accordance with the approved plans. It should be noted however that:
   (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
   (b) Variation to the approved plans will require the submission of a new planning application.

6. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

7. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

8. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12

weeks of the date of this notice.

9. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.

10. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at https://acp.planninginspectorate.gov.uk

11. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

12. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
