Comments: How will this affect the public footpath /public right of way. If the public right of way is closed then we would object to this application.

We would like you to consider the many individuals that use the public footpath everyday, this is why we moved to the local area for the lovely scenery and walks. We have been using this footpath for over twenty years. Please could you inform the community on how it will effect the right of way.

We don¿t object to the planning of the barn just to the change of a public footpath.
