20th June 2019

Dear Sirs,

Application Number HPK/2019/0128 undated

I would like to object to the above planning application being granted for a community garden behind the Methodist church.

Our quiet cul-de-sac is right next to the ground being used and I think that this project will create a lot of unwanted noise to the area, especially at the onset. We have already had a member of the church calling door to door to tell us that there will be disruption, just a curtesy call she called it.

Once word gets round that there is free fruit and veg, our road will be flooded with cars and people, we have enough trouble parking outside our own homes as it is, especially at school times, without adding to the chaos.

We already have a number of under aged drinkers sitting around on walls and I am really concerned that the garden will just give them a place to congregate and swell their numbers.

I have been informed that the ground and some money was donated to the church to make sure that the ground became a cemetery, if the church choose to alter the use of the land, should it not be returned to the family involved?

I hope that this letter reaches you within the 21 days required, as there is no date on the planning application.

Regards

Mrs B A Yates
