CON 2019 0016 (Staffs Moorlands)

Hi Chris,

We have been involved in this for some time and we would support the application.

The applicant has already been issued an environmental permit by the environment agency, to carry out this process and now so many of the environmental issues associated with the site will be controlled via this permit.

In addition
The measures outlined in the Environmental Management System (EMS-RGF001) by AC Environmental Consulting should be sufficient to prevent significant amenity issues to neighbours.

We would therefore recommend that the county imposing a condition that the proposed EMS is strictly adhered too throughout the permission.

Thanks

Dan

Dear Env Health

Re: CON 2019 0016 – Planning application to SCC for temporary waste recycling facility

We have been consulted on the above SCC application and enclosed are the details of the application and the proposal.

Before I formally respond to SCC I would be grateful for your comments within 14 days on the proposal and its environmental impacts.

I have had at least two Members contact me about this raising concerns!

Many thanks

Chris
