Land to the south of Saddler's Cottage
Land previously owned by Canal and River Trust. A sensitive site within the Conservation Area also affecting the setting of several Listed Buildings. I am assuming that there is no objection with the change from a paddock to a horticultural activity (agriculture) but it is important that it does not become a domestic garden.

There is no objection to the proposed structure which has been carefully designed to respect nearby brick structures. We need details of any surfacing associated with this structure (paths and hardstanding) and any other proposed structures on the site.

Condition joinery details, facing materials, details of eaves and verges
