Good Morning

RE: DET/2019/0042 – Land off Blakely Lane, Little Blakely Lane, Richmoor Hill, Dilhorne.

Proposed Development: Steel Portal Frame Building.

Following our Parish Council meeting, the above application was discussed at length. Several concerns were raised as follows:

1. The size, hight and scale of the building.
2. The visual impact on the openness of the countryside would be severely compromised due to the size and location of the proposed building.
3. The proposed location should be closer to the applicants existing building which would be better accessed from his existing track.
4. Inappropriate development in greenbelt site.

Kind regards

*Carmen Giuliano-Worthington*
