LONGSDON PARISH COUNCIL.

Councillors have been consulted on the following planning application:

SMD/2020/0031 Retrospective Application for the Retention of Replacement Stables at Micklea Farm, Micklea Lane, Longsdon.

Councillors agreed, unanimously, to OBJECT to this application on the following grounds:

The current building on the site bears no resemblance to the photographs of the former building on the site.
Why are there no drawings of the current building on the site ?
The current building is a more permanent structure with double skinned insulated walls which is much, much different from the photographs produced of the former building.
The current building is on a different site to the original "stable" block.
The site is within the green belt with no special circumstances for development.
The structure of the new building would lend itself to future human habitation.

John Bourne,
Clerk to the Council.
