Categories:

We currently live at 58 Well Street. When we moved into the property we were advised that a bungalow was potentially being built on the plot of land adjacent. During the discussion we were also told that the kerb on Ashbourne Road - directly in front of the double gates was going to be dropped. This would then be our access to the property.
Is this going to happen? There's no mention of it on these plans. We were also told that the fence would be completed before building work commenced. This is imperative seeing as we have young children at the property. We don't want them having access to a building site. We in no way oppose the buidling going ahead and look forward to hearing from you on this matter.

Good afternoon Robert

Apologies but I am unable to trace your original comments email, are you able to re-submit them please?

Kind regards

Hi sorry I've had trouble with my internet connection and it looks like I've submitted my comments three times. Like I said on my comments we do not oppose the plans, but we would like promises to be kept. Which means our plot is finished before the building work starts if plans are passed.
