Pedestrian Guardrail

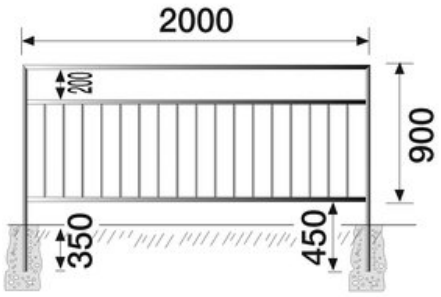

BX14 4206

High visibility pedestrian guardrail manufactured from 50 x 30mm box section steel with 12mm infill bars (16mm on request).

Features

- High visibility pedestrian guardrail manufactured from 50 x 30mm box section steel with 12mm infill bars (16mm on request).
- Infill bars are staggered giving the effect of creating space when viewed at an angle. Produced with a visibility gap in the upper section of the panel.
- Available in standard 2000mm panels (shorter panels available on request).
- Finished galvanised or galvanised and powder coated.
- Priced per 2000mm panel.
- This fencing can also be produced to site specific levels, please contact Broxap sales directly to discuss.
- Broxap can also provide a full site survey and installation service £POA

Broxap Ltd., Rowhurst Industrial Estate, Chesterton, Newcastle-under-Lyme, Staffordshire, ST5 6BD

All dimensions are in millimeters, weights in kilograms and capacities in litres, are approximate and do not form any part of the contract. All prices are guide prices only and should be used for estimating purposes only. Broxap Limited reserve the right to change the design, specification or price of any item sold at any time.
All prices exclude VAT and delivery.
