Location of Development:

Description of Development:

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.
Reason: To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby approved shall be carried out in accordance with the details as submitted in the application form and submitted specifications and as shown in drawings:
PFB 75' x 45' sheets 1 to 7 inclusive
1:1250 revised site location and layout with landscape planting submitted by e-mail dated 25th June 2020
Reason: To ensure that the development is carried out in accordance with the submitted details and approved plans, in the interests of good planning, for clarity and the avoidance of doubt.

3. The external facing materials shall be concrete panel sections to height 2m with upright timber boarding above to roof edges and the roof shall be of fibre cement sheets finished externally to dark grey or 'raven' colour BS18/B29 (save for translucent panels as shown in the plans) and there shall be no variation without the prior consent in writing of the Local Planning Authority.
Reason: To ensure that the development is appropriate to the rural and heritage setting and minimises prominence in the landscape.

4. The development hereby permitted shall not commence until drainage plans for the disposal of foul and surface water flows have been submitted to and approved in writing by the Local Planning Authority and the scheme shall be implemented in accordance with the approved details before the development is first brought into use.
Reason: To ensure that the development is provided with a satisfactory means of drainage as well as to prevent or to avoid exacerbating any flooding issues and to minimise the risk of pollution.

5. Within 28 days of the commencement of development details of all boundary treatments including gates, hard landscaping, vehicular access, surfacing, parking and turning areas shall be submitted to the Local Planning Authority for written approval and prior to the first occupation of the development shall be completed in accordance with the design details as subsequently approved in writing and thereafter be retained for the life of the development.
Reason: In the interests of the visual appearance of the development and the amenities of the area; to comply with NPPF Paragraph 108; to comply with SMDC Core Strategy Policy DC1; in the interests of highway safety.

6. Within 28 days of the commencement of development (including any demolition, site clearance, stripping or site establishment) there shall be submitted to the Local Planning Authority a scheme of landscaping. Such a scheme shall in particular provide for reinforcement of existing hedgerows and planting of new native species hedgerows, including standard trees, to the locations indicated in the 1:1250 revised site location and layout drawing hereby approved and shall include full details of all new trees and shrubs, giving specification for species, positions, planting sizes and numbers/densities of all new planting and measures of protection against grazing livestock or other animals. The landscaping scheme so approved by the Local Planning Authority in writing shall be fully implemented before the end of the first available dormant season (November to February inclusive) following completion of the development hereby approved or its first occupation whichever is the earlier. Any plants which die or are lost or otherwise fail to establish in the first five years following the completion of the planting shall be replaced in the next available planting season with plants of the form and size as originally planted. The planting shall thereafter be allowed to grow and be maintained for the lifetime of the development.
Reason: In the interests of the visual appearance of the development and the amenities of the area.

7. If the use of the building hereby approved for the purposes of agriculture within the unit permanently ceases, unless the local planning authority have otherwise agreed in writing, within 6 months the building shall be removed from the land and the land shall, so far as practicable, be restored to its condition before the development took place, or to such condition as may have been agreed in writing with the local planning authority.
Reason: In the interests of the visual landscape amenities of the area as the site lies within open countryside within the Green Belt and the building has only been permitted for reasons to serve an agriculture related need in accordance with Policies SS1, SS1a, SS6c R1 and the NPPF.

8. The development including access hereby approved shall be used solely for purposes of agriculture in association with the land at Ivy House Farm, Tompkin Road and there shall be no incidental or other non-agricultural use of the development.
Reason: For clarity and the avoidance of doubt and in the interests of the visual landscape amenities of the area and residential amenity.

Informatives

The Local Planning Authority worked positively with the applicant to identify various solutions during the application process to ensure that the proposal comprised sustainable development and would improve the economic, social and environmental conditions of the area and would accord with the development plan. These solutions were incorporated into the scheme and/or have been secured by planning condition. The Local Planning Authority has therefore implemented the requirement in Paragraph 38 of the National Planning Policy Framework.

Use of the building hereby permitted for any non-agricultural purposes will render the owner liable to formal enforcement action.
