We would like to object to the above referenced planning application.
The proposed property will over look our back garden and impinge on our privacy.
The proposed plans would potentially mean 5 or more extra cars requiring access and parking on the avenue.
The proposed access to the new property is very restricted and there is the potential that cars from these properties will end up parked on what is already a very narrow road, with inadequate parking for the current requirements.
The extra traffic on the avenue will cause congestion and access issues for all the current residents.
This plan is I'll thought out and impractical.
Yours sincerely.
John and Yvonne Marcon.
