ST10 4BQ.

Dear Madam... 18 JAN 2021

I write regarding the above planning Application, I wish to object to this new application and would like you to consider the following points in your determination.

1. There are no pavements on the Classified road (C road 0065)
2. This is a heavily congested road used by Alton Towers staff, Alton residents, visitors, delivery and service lorries, also agricultural vehicles exiting the site.
3. The road is narrow, hence vehicles have difficulty in passing
4. There is limited street lighting.

5. The access is onto a brow of a hill, with a blind bend, creating a very dangerous situation to other road users.

6. The road can be dangerous, with drivers, totally ignoring, or are oblivious to road restrictions (speed signs)

7. When the refuse lorry collects waste. The road becomes blocked in both directions as you cannot overtake.

8. I have in the past, had to reverse my car, when this occurs to a point where the Cedars access is at present, directly onto the blind bend & brow of the hill. which would become more dangerous with vehicles joining the carriageway at this point.

Best Regards. Stay Safe.
