NOTES TO PLANNING OFFICER

Existing plans show 2 signs - a fascia sign and a projecting sign.
Application form refers to an unlit fascia sign and a lit projecting sign. It is not apparent from the drawing where the projecting sign is located. However, the application form also states that these will be replacement signs. Response is issued on the basis that the projecting sign will be in approximately the same location as existing.
The building is not directly adjacent to the highway. Illuminance level is stated as 50cd/m2 which is below maximum levels for locations such as this.
