

DELEGATED DECISION REPORT

HNT/2021/0008
Valid 18/03/2021

7 DOLESRING CLOSE
FORSBROOK

PROPOSED SINGLE STOREY
SUNROOM EXTENSION TO
REAR MEASURING 5.01M
BEYOND THE REAR WALL OF
THE ORIGINAL DWELLING,
3.63M MAXIMUM HEIGHT AND
2.57M TO HEIGHT OF EAVES

(HOUSEHOLDER
NOTIFICATION APPLICATION)

MAIN ISSUES

Compliance with the GPDO (2015)

DESCRIPTION OF SITE

The proposed site comprises a detached two storey brick and tile dwellinghouse and its associated curtilage, situated in the Forsbrook ward. Additionally, the proposed site is within the Blythe Bridge Development Boundary. The site is enclosed by neighbouring dwellinghouses on both sides, No. 5 Dolespring Close is situated to the West and Westbrook, No. 10 Dolespring Close is located to the South-east. The rear curtilage of the site adjoins the curtilage of No. 4 Willow Way, as well as the Willow Way highway. The Dolespring Close highway runs adjacent to the proposed site on the South.

PROPOSAL

The proposed development consists of a single storey rear extension. The extension will have a maximum height of 3.63 metres and maximum eaves height of 2.57 metres measured externally from natural ground level. It will have a depth of 5.01 metres. Materials used in the construction of the proposed extension would match those used in the construction of the existing dwellinghouse, including brown brickwork and Ludlow major roofing tiles. The extension would be positioned behind the original dwelling, and not behind the extension approved in 2002.

OFFICER COMMENTS

In conformity with the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended), it is necessary to assess whether the proposed rear extension to the dwellinghouse adheres to the criteria stated by Schedule 2, Part 1, Class A of the GPDO, to determine whether the householder development is permitted.

Schedule 2, Part 1, Class A.1 (a) states that development is not permitted if the use of a dwellinghouse as a dwellinghouse changes. The rear extension will be solely used as part of the living space of the residents to fully maintain its status as a dwelling, thus making it compliant under this criterion.

In accordance with Class A.1 (b) of the GPDO, the ground coverage of the building combined with the addition of the rear extension would not exceed 50% of the total curtilage of the dwellinghouse.

Class A.1 (c) and (d) confirm that the height of the roof and eaves of the proposed extension cannot exceed beyond the maximum roof height and eaves height of the existing dwellinghouse; otherwise the development is not permitted. Neither the

height of the roof or the eaves of the single storey extension would exceed the maximum roof or eaves heights of the existing dwellinghouse.

As the extension would not be constructed on the principal elevation of the dwelling, nor would it front the highway and form a side elevation of the existing dwellinghouse, this would be in compliance with Class A.1 (e.i) and (e.ii).

This is an application under the larger extension procedure of the GPDO, therefore Class A.1 (f) does not apply. Under Class A.1 (g), the dimensions of the proposed development are within those permissible. With a maximum height of 3.63 metres and a depth of 5.01 metres measured externally, the extensions would be under the 4 metre height limit and fit within the 8 metre projection limit on detached dwellinghouses.

The enlarged part of the dwellinghouse does not have more than a single storey and therefore, Class A.1 (h) does not stand applicable to the proposed development.

With respect to Class A.1 (i), if the proposed extension would be positioned 2 metres from the curtilage boundary of the dwelling, the eaves height of the proposed extension cannot be above 3 metres. The eaves height of the proposed extension would be 2.57 metres, therefore the development would be in conformity with this restriction.

Class A.1 (j) states that the enlarged part of the dwellinghouse cannot extend beyond a wall forming a side elevation of the original dwellinghouse, unless it abides by certain criteria. The proposed extension will only project from the rear elevation of the original dwelling, therefore this rule is not applicable.

With regard to Class A.1 (ja), any total enlargement including the addition of further enlargements to existing enlargements, criteria e-j. As set out above the extension complies with the relevant criteria and would not exceed the 8 metre limit set out in Class A.1 (g). The total measurement of the proposed extension would not exceed 8 metres, therefore meaning that it is accords with this provision. The single storey rear extension will replace an existing conservatory extension approved under the application SMD/2006/1294.

The proposed extension would not include the addition of any new ornamentation features such as a verandah, microwave antenna, a chimney or flue or the alteration to the existing roof of the dwelling. Therefore, Class A.1 (k) is not applicable.

The proposed site does not fall within article 2(3) land, therefore Class A.2 does not apply.

In order to accommodate to the conditions raised in Class A.3 of the GPDO, the proposed development would be constructed from materials which would harmonise with the existing colours, textures and materials of the dwellinghouse. In accordance with Class A.3 (a), the agent has confirmed that all proposed materials are set to match those used in the construction of the existing dwelling, including brown brickwork and Ludlow major roofing tiles.

Due to no neighbour objection being raised within the consultation period given, the necessity to consider neighbour amenity is not required.

Permitted development rights in relation to the proposed site remain intact.

CONCLUSION / PLANNING BALANCE

This notification falls within the framework set out within Schedule 2, Part 1, Class A (g) of the Town and Country Planning (General Permitted Development) (England) Order 2015. Due to there being no neighbour representations raised, there is no requirement to consider neighbour amenity, thus the proposal can proceed as permitted development. As a result the extension is permitted development.
