28 July 2019

To whom it may concern,

This letter is to confirm my professional business relationship with Jennifer Thompson, Vecthom Sporthorses.

I was first introduced to Jennifer Thompson in 2012 as a knowledgeable contact for quality showjumpers for competing Nationally and Internationally to Gran Prix level.

Initially I required mares for my Stud and I purchased 15 mares from Jennifer during December 2012 – March 2013. These mares were all inseminated with Gran Prix stallion semen and produced health foals in Spring 2014.

During the following years up to and including this year I have continued to buy top bred bloodline colts, fillies and mature stallions and mares for breeding and competing.

I have purchased in excess of 27 horses from Jennifer since 2012 with the most recent being a 7 year old Jaloubet Z stallion, a 3 year old Berlin colt and a 3 month old Untouchable foal. Jennifer recognises the importance to using the correct bloodlines in order for the foal to have the right genes to be a future superstar horse. The foal I have just purchased from her has been beautifully bred and her Stud mares are second to none. Her foals each year are always bred spectacularly. I have invested large sums of money in the horses I own ie around £500,000 and have spent close to £300,000 with Jennifer alone.

Our professional relationship has developed into one of trust, Jennifer knows exactly what type of horse is right for me which means I don't have to waste my time looking and risking making expensive mistakes. Jennifer uses her contacts both in the UK and Worldwide to source the right horses for my ownership. I have also had the benefit of meeting British World Ranking Showjumpers such as Robert Whittaker and Guy Williams. Jennifer has provided horses for British world ranking showjumper Guy Williams to ride and is very respected within the British showjumping fraternity.

I shall continue to purchase horses through Jennifer and rely heavily on her worldwide contacts to find the right horses with the right potential to go all the way to Gran Prix level. It is very rare in this industry to find not only someone you can trust but also who has the contacts and the knowledge to find the right horse for the right job.

Jennifer has been a pleasure to deal with since meeting her in 2012 and I anticipate the relationship will continue for many more years to come.

Yours faithfully,

Paula Charlton
