Submission: Objection

Comments: I am registering my strong objections to the proposed planning development on the following grounds

I am a resident of Bridge End, where access to the proposed development is by private track attached to my property. As with previous proposals for this site, the applicant has not considered the effect of this development will have on existing residents. We are a small community of 8 houses with approx 2 to 3 cars per household and we manage the parking situation as a community, however even with this careful management of spaces there is often insufficient turning and passing places. The track is also used for communal wheelie bin storage for the convenience of the residents and refuse collectors, which again is managed by our small community.

The residents and wildlife will be deeply effected by this development. The usually quiet track which is a haven for all sorts of wildlife and a place for our children to play safely together would be compromised and unsafe.

I therefore feel very passionate that this development should not take place and that my concerns are listened to and acted upon to refuse this planning application.
